

Our MHT-2700 glass thermal barrier products are a cost effective solution for applications that require higher service temperatures to 1300°F. This family of continuous filament coated MHT-2700 glass is non-respirable, will not burn and is asbestos and ceramic fiber free for a safer working environment. These fabrics are unaffected by most acids, alkalis or solvents. MHT-2700 glass is soft, flexible and durable at 1300°F service temperatures which allow a longer life cycle. The alternative fiber for that application where glass will not meet the requirements

<b>BASE CLOTH:</b>	Fiberglass
<b>WEIGHT:</b>	18 oz./yd <sup>2</sup>
<b>WEAVE:</b>	Plain
<b>THICKNESS:</b>	0.032"
<b>WIDTH:</b>	60"
<b>LENGTH:</b>	50 yards
<b>COLOR:</b>	Green
<b>COATING:</b>	Proprietary high temperature coating with an organic content under 5%. The high temperature coating is soft with no dust.
<b>TEMPERATURE RESISTANCE:</b>	Service Temperature 1300°F
