

WEIGHT:	13.5 oz/yd ²
THICKNESS:	0.019"
BREAKING STRENGTH:	243 lbs/inch
FIBER:	Alumina
WEAVE:	Twill
WIDTH:	40"
ROLL LENGTH:	33 yards
SERVICE TEMPERATURE:	2300 F ⁰

Style MM3025 is a tough and durable woven fabric made from high strength continuous alumina fibers. Boron free, this material performs with superior flexibility at service temperature. Typical applications in the petrochemical, steel and semiconductor industries.
