

Base Material:

Continuous Temperature	1200°F
Melting Point	2400°F

Fabric:

Weight	5.90 oz/yd ²
Weave Type	Twill 2/2
Construction	Warp – 18 ends/in Fill – 18 ends/in Continuous Filament
Width	50"
Thickness	.008"
Sizing Type	AminoSilane
Breaking Strength	Warp – N/25MM >1800 Fill – N/25MM >1800
Moisture Content (Fabric)	<0.3
LOI, also sizing content	0.4 – 0.6
Combustability	Pass
UV Stability	6
Color Fastness	6

Superior Strength and Abrasion Resistance even at temperature.
